JR One - The Vertical Transporters

Year 2006 saw aspiring young technocrats chase the dream of starting a workshop to manufacture Lifts. The supportive and escalating building industry, be it for Building of Infrastructural India or a Home for an Indian, the economy has lent us its strength and support. In 2009, JR One came upon taking shape as 'The Elevators' for Hyderabad.

Through the past decade, a severe competition with the best of national and international players in this field has refined us and escalated the challenge manifold. Our arduous passion for perfection, our discipline to match one and every rigid design specification, and commitment to every delivery and installation schedule, has earned us the trust and abounding customer loyalties.

We are presently recognized as tough competitors to national and international brands with our vastly skilled technical staff and our ratified operative and functioning technology.

Today JR One is an established and trusted brand with a substantial market presence. Through collaboration with global Lift majors for their specialised technology in areas of components, modules and Lift systems, JR One offers a spectrum of 'lifting' options' to choose from – options that suit every purpose, taste and budget.

Maintenance being the core of our service component, JR One boasts of specialised and trained technical team who work on customised and diverse solutions and timelines.

Our services for the Elevator Industry encompass

- Installations
- Modernization
- Repairs
- Maintenance
- After sales Services

Continuous innovation and reinvention process at JR One will warrant a safe, smooth and silent ride every time for a life time! The premium components used by JR One ensure minimum noise levels, vibration or disturbance throughout your journey.
